

Equine tooling

Dental files

Available in various lengths and various tooth configurations (fine, medium and coarse).

Different styles available, including (*but not limited to*):

Traditional
(can be re-sharpened to maximize tool life)

Fineline
(disposable)

SamJonte
(disposable)

Universal
(medium grit carbide coating)

Power float discs
(available in fine, medium & coarse)

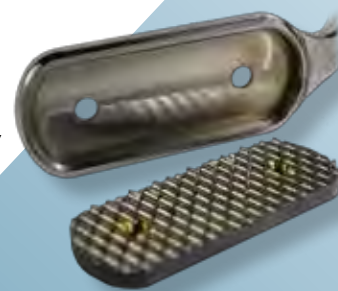

File floats

Ultracut manufactures a standard range of equine floats to accommodate a variety of purposes. These suit the Traditional, Fineline, SamJonte and Universal style files.

All floats are supplied with our hugely popular slip resistant soft touch grip for maximum control & comfort.

"Custom floats can be made to order."

Diamond wheels

Also available are apple core grinding wheels, which are coated in a high quality diamond grit.

Accessories

Ultracut also manufactures various extractors including the wolf tooth elevator.
